01 THE CORPORATE LOGO SIGNAGE

Our Logo is the key building block of our identity, the primary visual element that identifies us. The signature is a combination

of the symbol itself and our company name – they have a fixed relationship that should never be changed in any way.

THE CORPORATE LOGO SIGNAGE

THE FULL LOGO TYPE - CREATIVE NOTE

BigTapp Analytics Masterbrand or Corporate Logo comprises three elements, the logo symbol, logo type and tagline. The Logo Symbol is a powerful image evoking the culture of cloud big data analytics services.

It has a particular relationship with the BigTapp name. The Logo Type has been carefully chosen for its modern and yet refined, highly legible style, which has been further enhanced by the use of upper case letters in "B" & "T". The typeface is Proxima Nova Bold and has also been chosen to compliment and balance perfectly with the logo symbol.

The corporate logo is presented through the use of colour as well as shape and form. The two corporate colours are Blue and Black. It is a fresh and appealing blend of colours chosen for their strong combination - modern - classic - timeless.

The Colours have been selected according to international standards as shown below and are easily implemented.

02 THE CORPORATE TYPOGRAPHY

Typographic hierarchy is another form of visual hierarchy, a sub-hierarchy per se in an overall design project. Typographic hierarchy presents lettering so that the most important words are displayed with the most impact so users can scan text

for key information. Typographic hierarchy creates contrast between elements. There are a variety of ways you can create a sense of hierarchy. Here are some of the most common techniques for BigTapp layouts.

LOGO CONSTRUCTION, CLEARSPACE AND COMPUTATION

THE FONT

The rise of computer, mobile and tablet devices means there's a higher demand for designs for screen, which means sans-serif fonts move to the front of the line. Choosing a sans-serif

font when designing for screens and mobile has become a normal and standard practice in the design world. It's clean, minimalistic and works well at different screen resolutions.
